PROFESSIONAL SUMMARY

Experienced full-stack developer with a strong background in JavaScript, React, and Node.js. Proficient in API design, backend optimization, and building user-friendly interfaces. Skilled in creating scalable and high-performance applications that meet both technical requirements and user needs. Adept at collaborating within Agile teams, driving continuous improvement, and delivering solutions on time and within scope. Passionate about problem-solving and staying up-to-date with the latest industry trends and technologies to ensure the development of efficient and innovative products.

EXPERIENCE

Full-Stack Developer Sept. 2021 – July 2023
Confidosoft Solutions Pvt Ltd
- Enhanced Angular app performance, reducing page load time by 40% and lowering bounce rates.
- Integrated third-party libraries like DevEx and NGXS to build a scalable, maintainable frontend architecture.
- Developed and documented RESTful APIs with .NET, improving integration efficiency and reducing downtime by 20%.
- Created web applications with React and optimized backend integrations for enhanced performance.
- Mentored junior developers, strengthening team skills and driving innovation in full-stack development.

Web Developer Intern May 2021 – June 2021
BrainyBeam Technologies Pvt Ltd
- Enhanced complaint tracking and issue resolution with a web solution using Java/J2EE, implementing end-to-end lifecycle management.
- Focused on secure data handling with session management and authentication using Apache Derby.

PROJECTS

Connect 4 Game | *React, Express, MongoDB* | **GitHub** | **Live Demo**
- Built an interactive Connect 4 game with authentication, focusing on an engaging user experience and stable backend integration.
- Implemented secure data storage and efficient querying to manage player data and game sessions in MongoDB.

SenCare - Patient Wellness Tracker | *React Native, Node.js, Express, MongoDB* | **GitHub**
- Developed a cross-platform mobile application for real-time patient monitoring
- Designed and implemented RESTful APIs for efficient data management

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Typescript, C#, Java/J2EE, Python, Node.js

Frontend: Angular, React, React Native, Next.js, Bootstrap

Backend: Express.js, Spring Boot, .NET

Databases: MSSQL, MySQL, Derby, MongoDB

Cloud & DevOps: Microsoft Azure, Git, Postman, Swagger

Tools: Figma, JIRA

EDUCATION

Centennial College Toronto, ON
Postgraduate Degree - Mobile Application Development *Sept. 2024 – April 2025*
- GPA: 3.8/4.0

Sardar Vallabhbhai Patel Institute of Technology Vasad, India
Bachelor of Technology – Computer Engineering *Aug. 2018 – May 2022*
- GPA: 3.6/4 (8.96/10)

CERTIFICATIONS & HACKATHONS

Foamite Industries Hackathon | *2024*
- Developed a customer interface for Foamite Industries to submit custom foam shapes.
